[music] Hi there everyone. So, for today we're going to look at a new way to use silicone bottle gaskets to seal up your hydraulic system with our video process. While we're at it, we might as well talk about what types of bottles you can use, for example, pharmaceutical bottles, and so on. So, today we're going to be using a bottle for a cup and a bowl plunger application. We're going to give you a brief summary of how we're going to be doing this, and we're going to show you the examples of the application. And then we're gonna get right into it. As usual, if you want to learn more in depth about how to use hydraulic oils in emergency situations, and disaster preparedness, please watch our videos
