So, we offer this free of charge software to his family and this dream, and I do hope all in our community of

creators will accept our gratitude for the contribution he has made to the trueSpace project in the past few years. TrueSpaces is an amazing software package, far ahead of its time. TrueSpace also has one of the most powerful, accessible, versatile shader libraries that I have ever seen and has a plethora of plug-in capabilities that are quite unique in the 3D software world.
