Torrent Pro Landscape Version 18

landscape configuration: the new landscape enterprise 18.04 Its includes the ability to create a single landscape configuration to use across your entire organization. it also includes multiple configuration options, allowing you to easily create customized configurations for specific users and groups. management console: the new landscape enterprise 18.04 Its includes a gui that provides a user-friendly interface to configure and manage user and group subscriptions, as well as to create and manage custom configurations. version 18 of torrent pro landscape is now available for download. in this release we have added support for the nzb.it new client nzb.it which lets you download free and legal torrents, and the nzb.io client which lets you download free and legal torrents. the nzb.it client adds support for the nzb.it new client. it is a web client which is much more efficient than the prior clients in that it does not have to download the entire torrent to find out what it is. it is also fully graphical which makes it easier to manage your library. the nzb.io client has been updated to support the new client and is also available as a standalone application. the nzb.io client has a new user interface which gives you more control over the application, for example, you can now search by file name, rather than having to search the entire torrent, or disable the client. the 18.1.0 release is a security update to torrent pro landscape which fixes a security issue. this means that you need to update your copy of the software. we recommend that you update to the latest version, 18.0. 5ec8ef588b
