

## **PCinfo MagicEYE Crack Activation Code [2022]**

**Download**

PCinfo MagicEYE Crack is a complex database application which simplifies administration of hundreds of computers. It contains a set of effective tools for IT management and employee monitoring. PCinfo MagicEYE will give you all necessary information about a specific computer, user or about a whole computer network. The application includes three modules: "Monitoring", "Administrator" and "Network". In "Monitoring" module, you can read in all computers in a domain, work group, or according to IP addresses. You can ping, switch on, switch off, restart the selected computers, send messages to their users, remote programs installation, etc.

"Administrator" module gives you all necessary tools to manage a computer and its users. You can view the following information: type of the computer, MAC, IP address, name of the user, Windows version, installed programs, etc. You can also create a report of the user, view his privileges, set his status, view attached devices, see all files opened by the user or their properties, etc.

"Network" module gives you all necessary tools to manage a network. You can read in all computers in a domain, work group, or according to IP addresses. You can ping, switch on, switch off, restart the selected computers, send messages to their users, remote

programs installation, etc. You can also view the following information: The IP range of a computer, network topology, IP addresses of its users, etc. Pc info magiceye features: \* Detection and configuring of software \* Monitoring, reading in a specified computer \* Network control center \* PCinfo magiceye can be used only by the administrator of the computer. This is the reason why it is able to make so many optimizations. For example, it will read only working programs of the specified computer and save them to a database.
