Elden Ring is a fantasy action RPG developed by LINE Webtoon. Born out of LINE Webtoon's fantasy action RPG "The Shrouded Moon", it is a fantasy action RPG that visually and musically moves away from the settings and characters of "The Shrouded Moon" and once again embraces fantasy and action. The Lands Between is a world born out of the war between the Gods and the demons. A place where mankind will tread the endless war that has been raging for thousands of years. Having abandoned the world of humanity for a while, the few that still continue to exist are now unable to continue living in the open plains. They hide in mountain caves and lava tubes like animals, and the other survivors hide in the deep forests of the mountains and on islands created by volcanic eruptions. In this desolate world lies a hidden island that serves as home to a mysterious race known as the Elden. This race possess supernatural powers and have the potential to topple the world of gods and demons, so they are protected by a barrier on this island. There was a time when they were able to leave the island, but in a war with the world, this barrier was raised. However, as the hardships of life that are endured on the day-to-day basis begin to become unbearable, the few who remain within the barrier begin to harbor deep-rooted resentment towards the Elden. In the midst of the current tense situation, a hero arrives at this desolate island by chance. What kind of secret does he conceal, and what goal does he have? ✖ Contents, Screenshots, Artwork, and other content in this article are merely concepts and information on the development of Elden Ring, and are not original works of LINE Webtoon.
