Infinity Heroes is a card game, similar to Magic: The Gathering or Hearthstone. With the strategic layers that developed in Magic, Infinity Heroes now has a card game with strategic depth! The game takes place in a randomized world, matching the creative content of tabletop games. The cards that players use come from a single core set, with 4 new cards added every week. Each of these 4 new cards is added to your deck. The last card added to your deck is the one you use for your turn. From there, your opponent chooses their card and does their turn. You make one, then your opponent makes their turn. This continues until both players have completed their turn and both have locked in their cards. The game then shows your best 3 played cards, and your opponent's best 3 played cards. Then, you and your opponent resolve your highest cost and lowest cost card. After that, both players choose a new card from their decks, and that's it! What sets this game apart from other card games? Infinity Heroes gives you tactical choices, so whether you use a higher level of card game strategy or action, you always have the tools to win! - More than 200 card types to use! Cards can be used for Enchantments, Crafting, Relics, Ultimate, Abilities and Powers. - All cards have levels. Higher level cards cost more to use. Cards with the same level don't use any additional power. You have to consider if a higher level card will be better in some way, even if it's expensive for you to use. - Classes are Core Cards. You can change them out and gain access to a new deck. But, the real depth comes from upgrading your card types. Classes are cards that add abilities to your decks, while Type cards are the building blocks to upgrade your deck into the class you want. - Classes and Levels are used to grant powers, actions, and items to a single player. With the core set of cards being unlimited, you get to create your own unique hero to take on the battlefield. - There are also Choices, which are a way to say "do something" to resolve the current card you have in play. These are a simple trigger that will ask you what to do, and you choose the best card to put into play. - Ultimates are special cards that boost your hero power or give them specific powers. But,

The future of the Marvel Cinematic Universe has arrived, with a whole new saga to explore. So where next for the world's greatest superhero universe? Filmed at Pinewood Studios in Atlanta, USA, a quiet American city located in the heart of the Southeast United States, a not too distant future. But no longer the enigmatic, quiet character, but a different man now known as Sam Wilson, an ordinary American who decided to take the superhero journey, fighting Infinity Gauntlet, and inspiring S.H.I.E.L.D. to capture him. It's the early stages of the Marvel Cinematic Universe and the superheroes are establishing their public image. While Nick Fury and the high level intelligence of S.H.I.E.L.D. is looking over the new recruit, he is avoiding his eye. Although he has been ordered by S.H.I.E.L.D. to see if the young man will be the man for their needs, he shows total disrespect, saying: "Sh\*t, I just signed up for his cosmic cube." He turns to walk out, but when the volunteers ask him to stay for training, and he is ordered to take the parachute off his seat. In protest, he looks at them**
