Game Gotta agree with the 9/10
review saying this game delivers
the fun factor right when you
launch it. The controls are easy to
get your head around, and the 25cc
of cash you get at the end of each
stage is probably enough to buy it
on Steam if you really want to, but
there are also some pretty
extensive tweaks to the settings
you can make which will unlock
more crates, and allow you to swap
your weapons. It’s a challenging,
fast-paced top-down shooter with
an immense amount of depth to it.
As someone who’s been playing
games for over 30 years now, for
me this was the best experience

I've had with a top-down shooter in a while. CrateNGunS 2017-03-10 10:19:13 Great game! Amazingly good top down shooter. The AI opponent has a problem with shooting too close and getting shot, but can be beat in a second if you're good at the game. The world is pretty diverse in this game. Also the sound level is very suitable.
