
Kxd W55 Flash File MT6580 6.0 | Firmware | Stock Rom Tested Working ^HOT^

on kxd w55 device you will get custom rom which is not tested and not official by manufacturer. so flashing custom rom will void device warranty. we also provide tutorials and flashing files on our website. if you have any questions, suggestions and tricks about flashing roms, feel free to contact us through our contact us link. custom roms are unavalable and it will void device warranty. if you un-root your kxd w55 device then it will get restore stock firmware. custom rom will fix boot-loop issue (device hangs after boot), un-root stock rom, upgrade or downgrade phone software version, update ota from play store. but custom rom lacks some basic functions of phone. if you will install custom rom kxd w55 will lose device warranty as custom rom will break device security. do you have problems like da error, baseband error, bootloop and other issues then use this kxd w55 flash file. we have tried hard to solve all types of issues as possible from da error to force boot loop. some older firmware but it still working fine like cm4, cm5

or other firmwares. downloaded stock firmware files get installed in the /sdcard folder. other available file locations are /sdcard/download and /sdcard/downloads. for an automatic installation you should select standard or reboot. the usage of these files are very easy just use the flash file of your smartphone and its work. you can change the language and other settings by unchecking the option.
